

## PUBLIC HEALTH RESOURCES FOR PRIMARY CARE CANCER

### INTRODUCTION

The Cancer Prevention and Control Section at the Michigan Department of Community Health (MDCH) administers programming and information related to breast, cervical, and colorectal cancers as noted in the first two items listed below. In partnership with the Michigan Cancer Consortium, a statewide coalition of over 100 cancer organizations, information and resources are available on a variety of topics including prostate cancer and cancer survivorship.

### PROGRAMS

#### [Michigan Breast and Cervical Cancer Control Program](#)

*The Michigan Breast and Cervical Cancer Control Program* offers free breast and cervical cancer screenings (Clinical Breast Exams, Mammograms, Pap tests, and Pelvic exams) and over 75 diagnostic services to eligible\* program women based on established clinical guidelines. Women receive these services through 20 local health departments and the Karmanos Cancer Institute in Wayne County. (See [Breast and Cervical Cancer Control Program - Enroll In The BCCCP](#) ) for the agency that covers your county. If a breast and/or cervical abnormality is identified from the screening test/exam, the woman is referred to community providers for follow-up. Women diagnosed with either breast or cervical cancer may apply for cancer treatment coverage through a special Medicaid program ([Breast and Cervical Cancer Control Program - Cancer Treatment](#)) available to eligible BCCCP women.

<b>Geographic coverage area</b>	Statewide
<b>Target Population</b>	Uninsured or underinsured women
<b>*<a href="#">Eligibility Criteria</a></b>	<ul style="list-style-type: none"> <li>Ages 40 to 64</li> <li>No more than 250% of poverty level</li> </ul>
<b>Website(s)</b>	<ul style="list-style-type: none"> <li><a href="http://www.michigancancer.org/bcccp/">http://www.michigancancer.org/bcccp/</a></li> <li><a href="http://www.michigan.gov/mdch/0,4612,7-132-2940_2955-13487--00.html">http://www.michigan.gov/mdch/0,4612,7-132-2940_2955-13487--00.html</a></li> </ul>

#### [Michigan Colorectal Cancer Early Detection Program](#)

*The Michigan Colorectal Cancer Early Detection Program* (MCRCEDP) provides colorectal cancer screening and follow-up of abnormal screening results to program eligible Michigan men and women, aged 50 - 64. If cancer is found, treatment is not paid by the Program but links will be provided to community partners.

<b>Geographic coverage area</b>	Providers are located in <a href="#">38 Michigan counties</a>
<b>Target Population</b>	Uninsured or underinsured Michigan Residents
<b><a href="#">MCRCEDP Eligibility Criteria</a></b>	<ul style="list-style-type: none"> <li>Ages 50-64</li> <li>Average risk* clients screened for colorectal cancer by Fecal Occult Blood Test (FOBT)</li> <li>Increased risk* clients screened for colorectal cancer by colonoscopy</li> <li>Clients at high risk for colorectal cancer are ineligible for the MCRCEDP</li> <li>No more than 250% of poverty level</li> </ul>

## WEB RESOURCES

### Michigan Cancer Consortium Prostate Cancer Resources

*Michigan Cancer Consortium Prostate Cancer Resources* is a collection of online materials developed to help men make decisions about treatment, and manage common treatment side effects. Resources include a booklet, *Making the Choice – What to Do About Early Prostate Cancer*, and 14 fact sheets focused on potential side effects of treatment.

<b>Target Population</b>	<ul style="list-style-type: none"><li>• Patients newly diagnosed with prostate cancer</li><li>• Patients who have undergone prostate cancer treatment</li><li>• Prostate cancer survivors and family members</li></ul>
<b>Website</b>	<a href="http://www.prostatecancerdecision.org/">http://www.prostatecancerdecision.org/</a>

### Guidelines for Primary Care Management of Prostate Cancer Post-Treatment Sequelae

*Guidelines for Primary Care Management of Prostate Cancer Post-Treatment Sequelae* is designed to help providers guide patients in managing the after-effects of prostate cancer treatment. Use of these guidelines was evaluated by researchers at two medical centers in 2010, and found to be helpful. Providers in the study suggested that availability of the guidelines should be publicized widely to clinicians.

<b>Target Population</b>	Primary Care Providers: physicians, nurse practitioners, physician assistants
<b>Website</b>	<a href="http://www.prostatecancerdecision.org/providers.htm">http://www.prostatecancerdecision.org/providers.htm</a>

### Michigan Cancer Consortium Local Cancer Resources

*The Michigan Cancer Consortium Local Cancer Resources* is a web based listing of cancer resources offered to increase Michigan cancer survivors' awareness of, and access to, survivorship resources and services. This resource guide is searchable and lists many statewide and national resources, as well as limited local information for cancer survivors. It is organized by counties and can be used by providers and cancer survivors or loved ones to find resources and support services. There is no targeted end date for this resource, which is free for anyone to use and it is maintained by the MDCH Cancer Prevention and Control Section.

<b>Target Population</b>	<ul style="list-style-type: none"><li>• Cancer Survivors</li><li>• Clinicians in primary care practices</li></ul>
<b>Website</b>	<a href="http://michigancancer.org/searchResources/index.cfm">http://michigancancer.org/searchResources/index.cfm</a>

### Cancer Survivorship E-Learning Series for Primary Care Providers

*The Cancer Survivorship E-Learning Series* is a free continuing education program that provides a forum to educate primary care providers treating cancer survivors. It provides a better understanding of how to care for survivors in the primary care setting. Continuing education credits (CEs) are available at no cost to participants for each 1-hour module. This program is available through the National Cancer Survivorship Resource Center (The Survivorship Center), a collaboration between the American Cancer Society and the George Washington University Cancer Institute.

<b>Target Population</b>	<ul style="list-style-type: none"><li>• Primary Care Providers</li><li>• Physician</li><li>• Nurse Practitioners</li><li>• Physician Assistants</li></ul>
